TOBOGGAN SLOPE AT THE JEDERMANNLIFT IN BÖDMEN

EASY TOBOGGANING

TOUR DESCRIPTION

The toboggan run at the Jedermannlift in Mittelberg, Bödmen is about 240 meters long. The drag lift is used as an ascent aid. This is only possible with the special toboggans provided. During the day, the toboggan run runs on a section separated from the ski slope. Depending on snow conditions, a wave run and steep curves are also prepared here. In the evening operation for sledders, the entire ski slope as well as the toboggan run can be ridden with the sled from the end of ski operation onwards.
